Dear Colleagues!

We invite you to take part in the work of The International Congress "Current Issues of Forensic Medicine and Expert Practice 2022".

Format of the event: online.

Venue: Moscow Regional Clinical Research Institute (MONIKI) (Russia, Moscow, Shchepkina st., 61/2).

Date: April 20-21, 2022.

Event start: 09:00 (Moscow time zone, UTC+3)

Registration link: <http://congress.for-medex.ru>

The main issues of the scientific program of the congress:

- Modern issues of thanatology and microscopic diagnostics;
- Post-mortem visualization and virtopsia;
- Examination of defects in the provision of medical care;
- Expert and law enforcement practice of harm to health;
- Forensic chemical research in expert practice;
- Forensic person identification and trauma analysis (section of medical criminology);
- Modern technologies for the study of evidences;
- Continuing medical education of forensic experts;
- Efficient management of the state forensic agency;
- Scientific and methodological support of forensic activities;
- The specifics of the work of specialists with specialized secondary medical education in the forensic bureau.

Target audience: forensic medical examination, pathological anatomy, healthcare organization and public health.

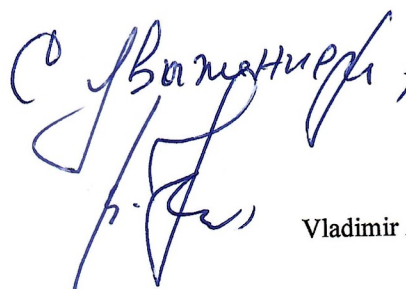

To participate in the work of the congress, on the day of its opening, go to the personal link or to the event website: <http://congress.for-medex.ru>

Oral presentation topics and abstracts are accepted until March 1, 2022 by email. SME Association address - help@for-medex.ru
